## INTRODUCTION

The 2008 edition of *Public Libraries in Louisiana: Statistical Report* includes data gathered from all public libraries in Louisiana by the State Library of Louisiana using Bibliostat Collect. The report complies with the Federal/State Cooperative System for Public Library Data (FSCS). It is a comprehensive compilation of information about libraries, including:

- all monies available to a library from all sources of funds,
- all expenditures made by the library,
- populations served,
- collections, services, and staff provided during the reporting year, and
- performance measures.

The data are arranged in alphabetical order by parish. A Louisiana Public Library Directors Telephone and E-mail Directory is included.

In addition to the actual data reported, some performance measures have been calculated for each library. It is important to remember that performance measures and comparative statistics are not absolutes. No single measure tells a complete story, and there are no right or wrong measures. An individual library's statistics should be considered in the context of its roles, goals, and objectives.

National data is cited from these sources:

Grady, Jenifer and Denise Davis, *ALA-APA Salary Survey 2008*, Chicago, American Library Association-Allied Professional Association, 2008.
