DIVISION OF ADMINISTRATION
OFFICE OF STATE PURCHASING

KATHLEEN BABINEAUX BLANCO
GOVERNOR

JERRY LUKE LEBLANC
COMMISSIONER OF ADMINISTRATION

February 9, 2006

NOTIFICATION OF AWARD

Ms. Debbie Griffith
Regional Director
BellSouth Business
7884 Office Park Blvd
Baton Rouge, LA 70809

Dear Ms. Griffith:

RE: Eligible Services, E-Rate Funding Year 09 2006-2007
Contract Number: 406418 File Number: N-92462-YT

This is official notification that the contract referenced above has been awarded to you on the basis of your bid submitted to the Division of Administration, Purchasing Section. Enclosed are copies of the approved Contract Award. This contract is to be used by Louisiana schools and libraries only, not State Agencies.

The contract shall be effective for a period of **thirty-six (36) months from February 9, 2006 through February 8, 2009**, or until such time as State Purchasing informs you by thirty (30) days written notice that this contract will be cancelled.

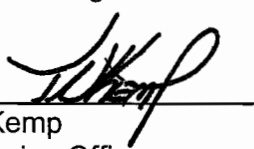

At the option of the Division of Administration and acceptance by the contractor, this contract can be renewed for two (2) additional twelve (12) month periods at the same prices and terms.

If a list of distributors was submitted with your bid proposal, it will be your responsibility, as prime contractor, to send copies of this award to each distributor. Prior approval from the Division of Administration, Purchasing Section, must be obtained before additional distributors may be added.

Sincerely,

Denise Lea
Director of State Purchasing

BY:

Timothy N. Kemp
State Purchasing Officer

2006-2007 FILE # N-92462-Y**

1. THIS IS NOT AN ORDER TO SHIP OR BEGIN SERVICE). A CONTRACT RELEASE OR PURCHASE ORDER MUST BE ISSUED BEFORE YOU ARE AUTHORIZED TO SHIP (OR BEGIN SERVICE).
2. THIS IS NOTICE THAT THE CONTRACT REFERENCED ABOVE HAS BEEN AWARDED TO YOU BASED ON THE BID (OR PROPOSAL) SUBMITTED. ALL TERMS, CONDITIONS, AND SPECIFICATIONS OF THE SOLICITATION WILL APPLY TO ALL ORDERS.
3. ANY AGENCY AUTHORIZED TO PURCHASE FROM THIS CONTRACT MUST ISSUE AN ORDER AND REFERENCE THE CONTRACT NUMBER, LINE NUMBER AND COMMODITY ITEM NUMBER FOR EACH ITEM.
4. CHANGES IN ITEMS TO BE FURNISHED ARE NOT PERMITTED (UNLESS APPROVED BY THE OFFICE OF STATE PURCHASING PRIOR TO DELIVERY). PRIOR APPROVAL MUST ALSO BE OBTAINED BEFORE DISTRIBUTORS CAN BE ADDED OR DELETED.
5. IF A DISTRIBUTOR LIST WAS SUBMITTED, CONTRACTOR MUST SEND COPIES OF THIS AWARD TO EACH DISTRIBUTOR.
6. QUANTITIES LISTED ARE ESTIMATED AND NO QUANTITIES ARE GUARANTEED (UNLESS "COMMITTED VOLUME" IS SPECIFICALLY STATED). CONTRACTOR MUST SUPPLY ACTUAL REQUIREMENTS ORDERED AT THE CONTRACT PRICE AWARDED.
7. COMPLIANCE WITH CIVIL RIGHTS LAWS.

THE CONTRACTOR AGREES TO ABIDE BY THE REQUIREMENTS OF THE FOLLOWING AS APPLICABLE: TITLE VI AND TITLE VII OF THE CIVIL RIGHTS ACT OF 1964, AS AMENDED BY THE EQUAL OPPORTUNITY ACT OF 1972, FEDERAL EXECUTIVE ORDER 11246, THE FEDERAL REHABILITATION ACT OF 1973, AS AMENDED, THE VIETNAM ERA VETERAN'S READJUSTMENT ASSISTANCE ACT OF 1974, TITLE IX OF THE EDUCATION AMENDMENTS OF 1972, THE AGE ACT OF 1975, AND CONTRACTOR AGREES TO ABIDE BY THE REQUIREMENTS OF THE AMERICANS WITH DISABILITIES ACT OF 1990. CONTRACTOR AGREES TO NOT TO DISCRIMINATE IN ITS EMPLOYMENT PRACTICES, AND WILL RENDER SERVICES UNDER THIS AGREEMENT AND ANY CONTRACT ENTERED INTO AS A RESULT OF THIS AGREEMENT, WITHOUT REGARD TO RACE, COLOR, RELIGION, SEX, NATIONAL ORIGIN, VETERAN STATUS, POLITICAL AFFILIATION, OR DISABILITIES. ANY ACT OF DISCRIMINATION COMMITTED BY CONTRACTOR OR FAILURE TO COMPLY WITH THESE STATUTORY OBLIGATIONS WHEN APPLICABLE SHALL BE GROUNDS FOR TERMINATION OF THIS AGREEMENT AND ANY CONTRACT ENTERED INTO AS A RESULT OF THIS AGREEMENT.

RECOMMENDING APPROVAL:

STATE PURCHASING OFFICER/SUPERVISOR

Component Description	Unit	
	Install	Monthly
Network Interface Jacks		
RJ48C: Standard data network interface, single line T/R, T1/R1, miniature eight position non-keyed network interface for 1.544 Mbps digital service, per Digital Local Channel		
RJ48X: Miniature 8-position with shorting bars for connection of 1.544 Mbps digital service, per digital local channel		
RJ11C Single-line Two-wire Tip and Ring, standard voice network interface jack	\$ 14.50	\$ -
REQUIRED for E-Rate WAN: Dedicated, Analog "POTS" line for each router		
School must provide a phone line; may furnish existing POTS line - or order as new.		
New, Flat Rate Business Service lines, per line (BellSouth areas only also see regulated charges, and optional wiring extension below)	\$ -	31.55*
* Regulated charges apply on a per-POTS line basis.		
<i>The current rates for regulated charges follow:</i>		
End User Common Line Charge, per line	\$ -	\$ 6.76
Telecommunications Relay Service Charge, per line	\$ -	\$ 0.05
Federal Universal Service Charge, per line	\$ -	\$ 0.86
OPTION: Basic Inside Wiring Extension (not applicable for fiber)		
Note: If the school's router is not in the same room as the Telco Demarc (See document, "Customer Requirements - Demarc") then the school is responsible for extending the wiring for both the WAN circuit and the analog POTS line to the router location.		
The School system may use own contractor for wiring or request from BellSouth		
If BellSouth provides wiring, the school must provide adequate raceway or conduit from the demarc to the router location.		
Premises Visit, Minimum, Testing, Verifying and Re-use Non-recurring Charges		
(a) Premises visit (per visit)	\$ 42.00	\$ -
(b) Minimum charge for services rendered	\$ 84.00	\$ -
(c) Testing, verifying and re-use of an existing wire (per termination)	\$ 28.00	\$ -
Customary Wiring Extension (not applicable for fiber)		
Standard pricing includes up to 150 ft. of wire, labor, materials, and termination at both ends based on normal conditions. This includes the fishing of normal, unobstructed walls surfaced with drywall, wood paneling, or plywood.		
(a) Jack and faceplate - 4 pair (or less), non-plenum, per termination	\$ 84.00	\$ -
(b) Jack and faceplate - 4 pair (or less), plenum - per termination:	\$ 116.00	\$ -

Potential Additional Costs:

See Customer Requirements - Demarc, under TAB F.

7.2 General Demarc

7.2.1. Demarc Definition

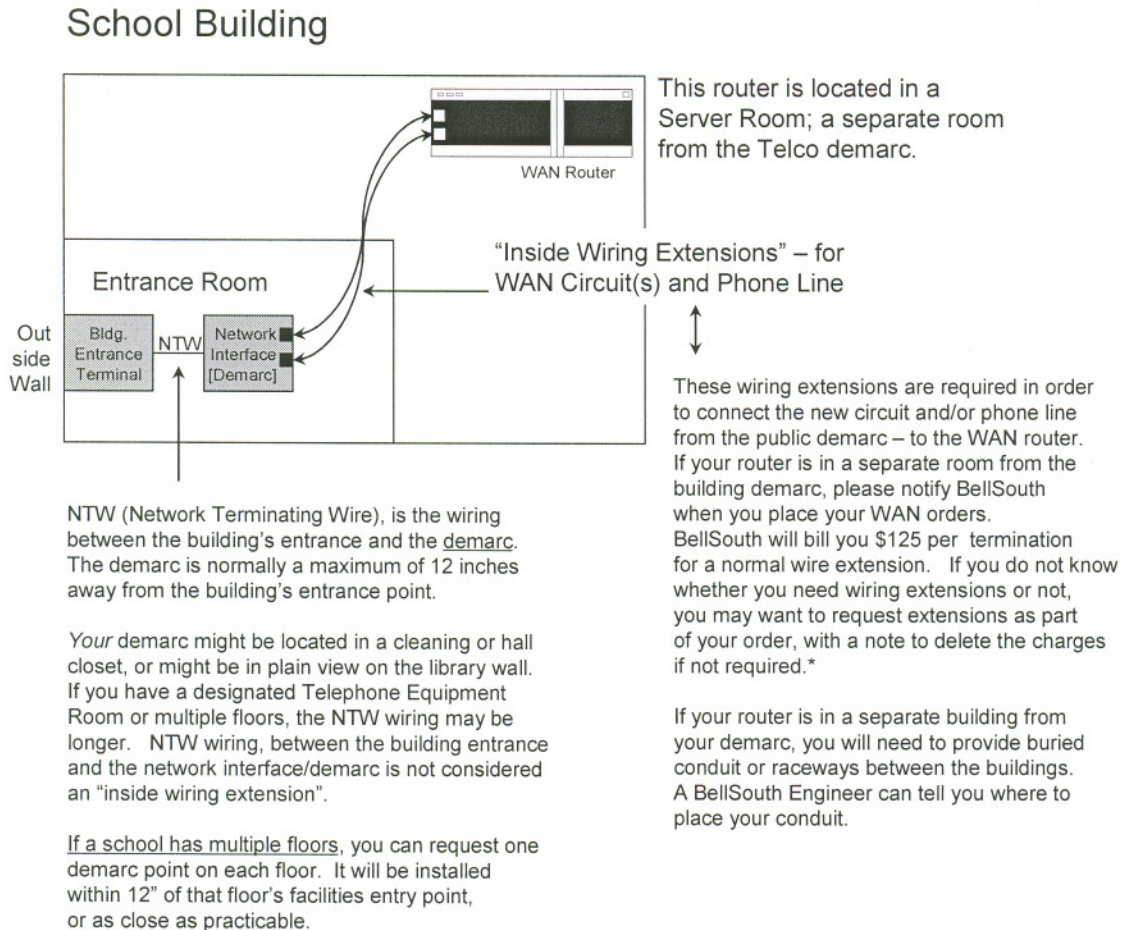

The word “demarc” is short for “demarcation point”. Years ago, the FCC issued an order that requires BellSouth to provide each customer with a demarcation point; a handoff or separation point where BellSouth’s outside wiring facilities end, and the customer’s premises wiring (“inside wiring”) begins. This demarc can be outside your building, or, at your request, inside your building. Options for placement of this demarc inside your building follow, with a diagram on the next page.

- ☐ **Standard Entrance:** This demarc must be placed within 12 inches of where BellSouth’s outside wire enters your building. The entry point is also called – the “minimum point of penetration”.

- ☐ **A designated Telco Equipment Room.** If you have provided a Telco Equipment Room, defined as an enclosed space with walls and a door to be used primarily for telecommunications services, the room may be considered the most practicable point of demarcation for all of your WAN circuits and telephone lines, if so requested.

- ☐ **Single Building, with Multiple Floors:** If a customer requests multiple demarcs, a maximum of one demarc can be established per floor, located within 12 inches of the facilities entry point for that floor (or as close as practicable). If the library does not have a demarc on each floor today, conduit or raceways may need to be installed first, which could delay the due date for new services.

7.2.2 Example Demarc Implementation

** Alternatively, the School may ask their own contractor to extend this wiring ahead of time. To avoid delay and aggravation, please have these wiring extensions in place five business days prior to the scheduled installation date of a new WAN circuit or Bundled Router.*

7.3 Bundled E-Rate WAN and NetVPN Bundled Services

Following is a list of general requirements needed to support the installation of BellSouth's bundled E-Rate WAN and NetVPN bundled services. As part of the standard bundle, BellSouth provides the customer with the use of various types of routers and other equipment (BellSouth or its suppliers retain ownership of the equipment in order to comply with the E-Rate eligibility rules).

1. **PHONE LINE for each ROUTER MODEM:** While BellSouth provides the required routers, and the external analog modems used for out of band management, the customer is required to provide

a dedicated phone line at the E-Rate WAN Router to allow BellSouth remote access to the Equipment for purposes of maintenance and problem isolation and resolution. This phone line should be in place and wiring extended to the router room at least one week prior to the installation date of your router. The school that is served by an Independent Telco will need to order a line from that Telco. Schools in BellSouth territory may order a line from BellSouth.

2. WAN CIRCUIT wiring extension to the router: The WAN circuit for your E-Rate WAN or Net VPN router must be terminated within six feet of the router location. Sometimes this requires an "inside wire extension" unless your router is going to be located in the same room as your existing telco demarc. If you do not already have wiring for a circuit from your demarc to your router, please be certain to request a wiring extension when you place your order. NOTE: Fiber-based services like MetroEthernet or Frame Relay DS3/subrate DS3 have special requirements. See "Customer Requirements for Fiber-based services".
3. SPACE, ACCESS, POWER: Customer must provide a suitable installation space and operating environment, as well as access, and electrical and communications connections as specified by BellSouth. Equipment racks, floor space and/or plywood backboards may be required depending on the specific installation. If service is required during failure of commercial AC power, the school may wish to provide a backup power source such as an emergency generated and/or uninterrupted power supply (UPS/Batter Backup).
4. LAN connection from bundled router to customer's hub or switch: Bundled Services are managed up to the LAN port on the bundled router. The school must provide and manage the LAN connection between the router and the school's LAN switch or hub.
5. IN-BAND MANAGEMENT ACCESS: Customer's Network Host Router must have a Frame Relay access circuit with 128K of bandwidth that can be used for WAN Management. BellSouth NOC must be able to monitor customer's remote sites from host management link, without crossing customer firewalls.

7.2 General Demarc

7.2.1. Demarc Definition

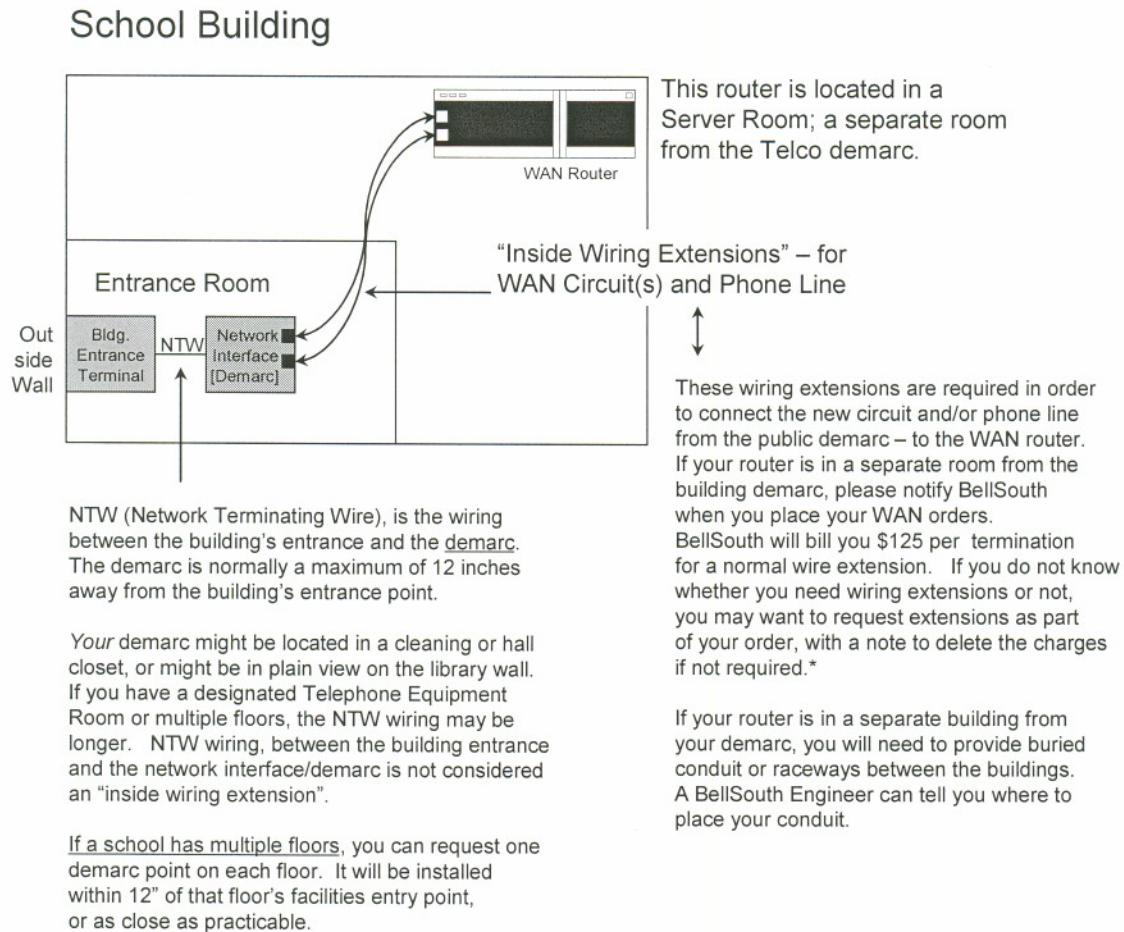

The word “demarc” is short for “demarcation point”. Years ago, the FCC issued an order that requires BellSouth to provide each customer with a demarcation point; a handoff or separation point where BellSouth’s outside wiring facilities end, and the customer’s premises wiring (“inside wiring”) begins. This demarc can be outside your building, or, at your request, inside your building. Options for placement of this demarc inside your building follow, with a diagram on the next page.

- ☐ **Standard Entrance:** This demarc must be placed within 12 inches of where BellSouth’s outside wire enters your building. The entry point is also called – the “minimum point of penetration”.

- ☐ **A designated Telco Equipment Room.** If you have provided a Telco Equipment Room, defined as an enclosed space with walls and a door to be used primarily for telecommunications services, the room may be considered the most practicable point of demarcation for all of your WAN circuits and telephone lines, if so requested.

- ☐ **Single Building, with Multiple Floors:** If a customer requests multiple demarcs, a maximum of one demarc can be established per floor, located within 12 inches of the facilities entry point for that floor (or as close as practicable). If the library does not have a demarc on each floor today, conduit or raceways may need to be installed first, which could delay the due date for new services.

7.2.2 Example Demarc Implementation

** Alternatively, the School may ask their own contractor to extend this wiring ahead of time. To avoid delay and aggravation, please have these wiring extensions in place five business days prior to the scheduled installation date of a new WAN circuit or Bundled Router.*

7.3 Bundled E-Rate WAN and NetVPN Bundled Services

Following is a list of general requirements needed to support the installation of BellSouth's bundled E-Rate WAN and NetVPN bundled services. As part of the standard bundle, BellSouth provides the customer with the use of various types of routers and other equipment (BellSouth or its suppliers retain ownership of the equipment in order to comply with the E-Rate eligibility rules).

1. PHONE LINE for each ROUTER MODEM: While BellSouth provides the required routers, and the external analog modems used for out of band management, the customer is required to provide

a dedicated phone line at the E-Rate WAN Router to allow BellSouth remote access to the Equipment for purposes of maintenance and problem isolation and resolution. This phone line should be in place and wiring extended to the router room at least one week prior to the installation date of your router. The school that is served by an Independent Telco will need to order a line from that Telco. Schools in BellSouth territory may order a line from BellSouth.

2. WAN CIRCUIT wiring extension to the router: The WAN circuit for your E-Rate WAN or Net VPN router must be terminated within six feet of the router location. Sometimes this requires an "inside wire extension" unless your router is going to be located in the same room as your existing telco demarc. If you do not already have wiring for a circuit from your demarc to your router, please be certain to request a wiring extension when you place your order. NOTE: Fiber-based services like MetroEthernet or Frame Relay DS3/subrate DS3 have special requirements. See "Customer Requirements for Fiber-based services".
3. SPACE, ACCESS, POWER: Customer must provide a suitable installation space and operating environment, as well as access, and electrical and communications connections as specified by BellSouth. Equipment racks, floor space and/or plywood backboards may be required depending on the specific installation. If service is required during failure of commercial AC power, the school may wish to provide a backup power source such as an emergency generated and/or uninterrupted power supply (UPS/Batter Backup).
4. LAN connection from bundled router to customer's hub or switch: Bundled Services are managed up to the LAN port on the bundled router. The school must provide and manage the LAN connection between the router and the school's LAN switch or hub.
5. IN-BAND MANAGEMENT ACCESS: Customer's Network Host Router must have a Frame Relay access circuit with 128K of bandwidth that can be used for WAN Management. BellSouth NOC must be able to monitor customer's remote sites from host management link, without crossing customer firewalls.

Component Description	Unit	
	Install	Monthly
Network Interface Jacks		
RJ48C: Standard data network interface, single line T/R, T1/R1, miniature eight position non-keyed network interface for 1.544 Mbps digital service, per Digital Local Channel		
RJ48X: Miniature 8-position with shorting bars for connection of 1.544 Mbps digital service, per digital local channel		
RJ11C Single-line Two-wire Tip and Ring, standard voice network interface jack	\$ 14.50	\$ -
REQUIRED for E-Rate WAN: Dedicated, Analog "POTS" line for each router		
School must provide a phone line; may furnish existing POTS line - or order as new.		
New, Flat Rate Business Service lines, per line (BellSouth areas only also see regulated charges, and optional wiring extension below)	\$ -	31.55*
* Regulated charges apply on a per-POTS line basis.		
<i>The current rates for regulated charges follow:</i>		
End User Common Line Charge, per line	\$ -	\$ 6.76
Telecommunications Relay Service Charge, per line	\$ -	\$ 0.05
Federal Universal Service Charge, per line	\$ -	\$ 0.86
OPTION: Basic Inside Wiring Extension		
Note: If the school's router is not in the same room as the Telco Demarc (See document, "Customer Requirements - Demarc") then the school is responsible for extending the wiring for both the WAN circuit and the analog POTS line to the router location.		
The School system may use own contractor for wiring or request from BellSouth		
If BellSouth provides wiring, the school must provide adequate raceway or conduit from the demarc to the router location.		
Premises Visit, Minimum, Testing, Verifying and Re-use Non-recurring Charges		
(a) Premises visit (per visit)	\$ 42.00	\$ -
(b) Minimum charge for services rendered	\$ 84.00	\$ -
(c) Testing, verifying and re-use of an existing wire (per termination)	\$ 28.00	\$ -
Customary Wiring Extension		
Standard pricing includes up to 150 ft. of wire, labor, materials, and termination at both ends based on normal conditions. This includes the fishing of normal, unobstructed walls surfaced with drywall, wood paneling, or plywood.		
(a) Jack and faceplate - 4 pair (or less), non-plenum, per termination:	\$ 84.00	\$ -
(b) Jack and faceplate - 4 pair (or less), plenum - per termination:	\$ 116.00	\$ -

Optional Services - Metro Ethernet				
Move Charge = 50% of associated Connection/Port Non-Recurring Charge				
Cancellation Charge = 75% of associated Connection/Port Non-Recurring Charge				
Reconfiguration, per modification, per connection	250.00		250.00	
Due Date Change Charge	200.00		200.00	
Expedite Charge	200.00		200.00	

Metro Ethernet: Potential Additional Costs:

See "Customer Requirements for Metro Ethernet" and "Customer Requirements for E-Rate WAN" under TAB F.

Note: BellSouth Metro Ethernet is sold where facilities are available. Pricing for certain locations could require the addition of Special Construction costs for placement of fiber. Determination of fiber availability requires a service inquiry. Contact your BellSouth Account Team.

State of Louisiana**Telecommunications - WAN; Balance of the Line****BELL SOUTH E-Rate WAN Bundle**

Component Description	Unit Rate	
	Install	Monthly
Additional Term Options for Bundled E-Rate WAN Router:		
Listed below are router prices for school/library systems that may wish to lease for a 12- or 24-month period		
E-Rate WAN Bundled Routers (part of E-Rate WAN Service Bundle only)		
12-month contract option for E-Rate WAN Bundled Routers:		
Cisco Class A Router - single T1 or 56K WAN Port	\$ 1,190.00	\$ 225.00
Cisco Class B Router - Up to 2 WAN Ports: T1, 64K, 2xT1	\$ 1,290.00	\$ 280.00
Cisco Class B Router - Up to 3 WAN Ports: T1, 64K, or 2xT1	\$ 1,290.00	\$ 295.00
Cisco Class C Router - Up to 5 T1 WAN Ports: 4 x T1	\$ 1,555.00	\$ 545.00
Cisco Class C router - Up to 6 T1 WAN Ports: 6xT1, or DS3/subrate	\$ 1,555.00	\$ 625.00
Cisco Class A Router - Single Metro Ethernet Port 10mb	\$ 1,190.00	\$ 225.00
Cisco Class A Router - Single Metro Ethernet port 100 Mbps	\$ 1,260.00	\$ 260.00
Cisco Class C Router - Single Metro Ethernet GigE	\$ 1,290.00	\$ 320.00
24-month contract option for E-Rate WAN Bundled Routers:		
Cisco Class A Router - single T1 or 56K WAN Port	\$ 1,190.00	\$ 215.00
Cisco Class B Router - Up to 2 WAN Ports: T1, 64K, 2xT1	\$ 1,290.00	\$ 255.00
Cisco Class B Router - Up to 3 WAN Ports: T1, 64K, or 2xT1	\$ 1,290.00	\$ 270.00
Cisco Class C Router - Up to 5 T1 WAN Ports: 4 x T1	\$ 1,555.00	\$ 525.00
Cisco Class C router - Up to 6 T1 WAN Ports: 6xT1, or DS3/subrate	\$ 1,555.00	\$ 580.00
Cisco Class A Router - Single Metro Ethernet Port 10mb	\$ 1,190.00	\$ 215.00
Cisco Class A Router - Single Metro Ethernet port 100 Mbps	\$ 1,260.00	\$ 250.00
Cisco Class C Router - Single Metro Ethernet GigE	\$ 1,290.00	\$ 295.00

	Install	Monthly
Establishment Charge per customer	\$ 250.00	\$ -
Gold Reporting, per cust connection	\$ -	\$ 2.00
Silver Reporting, per cust connection	\$ -	\$ 1.50
Bronze Reporting, per cust connection	\$ -	\$ 1.00
Subsequent modification charge, per cust conn.	\$ 75.00	\$ -
Management Access Web Interface, ea.	\$ 125.00	\$ 15.00
Management Access Security card, ea.	\$ 100.00	\$ -
DS3 ATM FRF5 Port	\$ 2,500.00	\$ 2,600.00
Frame Relay Expedite Request Charge, per request	\$ 200.00	\$ -
Network Interface "Jacks"		
RJ48C: Standard data network interface, single line T/R, T1/R1, miniature eight position non-keyed network interface for 1.544 Mbps digital service, per Digital Local Channel	\$ 6.27	\$ -
RJ48X: Miniature 8-position with shorting bars for connection of 1.544 Mbps digital service, per digital local channel	\$ 7.00	\$ -
RJ11C Single-line Two-wire Tip and Ring, standard voice network interface jack	\$ 14.50	\$ -
OPTION: Basic Inside Wiring Extension		
Note: If the school's router is not in the same room as the Telco Demarc (See Customer Requirements - Demarc - under TAB F) then the school is responsible for extending the wiring for the WAN circuit to the router location.		
The School system may use own contractor for wiring or request from BellSouth		
If BellSouth provides wiring, the school must provide adequate raceway or conduit from the demarc to the router location.		
Visit, Minimum, Testing, Verifying and Re-use Non-recurring Charges		
(a) Premises visit (per visit)	\$ 42.00	\$ -
(b) Minimum charge for services rendered	\$ 84.00	\$ -
(c) Testing, verifying and re-use of an existing wire (per termination)	\$ 28.00	\$ -
Standard Wiring		
Standard pricing includes up to 150 ft. of wire, labor, materials, and termination at both ends based on normal conditions. This includes the fishing of normal, unobstructed walls surfaced with drywall, wood paneling, or plywood.		
(a) Jack and faceplate - 4 pair (or less), non-plenum, per termination:	\$ 84.00	\$ -
(b) Jack and faceplate - 4 pair (or less), plenum - per termination:	\$ 116.00	\$ -

Shipping & Handling¹¹	\$ 14.95	\$ 14.95	\$ 14.95	\$ 14.95	\$ 14.95	\$ 14.95

⁷ Security: Minimum System requirements apply. PC security packages (2-4 or 5-10 computers) can only be installed on PCs residing at a single business.

⁸ DSL Modem or Router required for service. If you bill your CPE to your phone bill, you will be billed in interest-free installments over one or ten months. If you bill your CPE to your credit card, you will be billed in full.

⁹ A router is required for multiple users and for Fast/Access Business Speeds 384 and 768.

¹⁰ Router installation kit includes up to 2 PC connections.

¹¹ For self installation of BellSouth provided CPE.

State of Louisiana

Internet Access Category - WAN

BELLSOUTH E-Rate WAN Bundle

Bundles Edge Router, Maintenance, intraLATA WAN Transport, and options

Component Description	Unit	
	Install	Monthly
Network Interface Jacks		
RJ48C: Standard data network interface, single line T/R, T1/R1, miniature eight position non-keyed network interface for 1.544 Mbps digital service, per Digital Local Channel		
RJ48X: Miniature 8-position with shorting bars for connection of 1.544 Mbps digital service, per digital local channel		
RJ11C Single-line Two-wire Tip and Ring, standard voice network interface jack	\$ 14.50	\$ -
REQUIRED for E-Rate WAN: Dedicated, Analog "POTS" line for each router		
School must provide a phone line; may furnish existing POTS line - or order as new.		
New, Flat Rate Business Service lines, per line (BellSouth areas only, also see regulated charges, and optional wiring extension below)	\$ -	31.55*
* Regulated charges apply on a per-POTS line basis.		
<i>The current rates for regulated charges follow:</i>		
End User Common Line Charge, per line	\$ -	\$ 6.76
Telecommunications Relay Service Charge, per line	\$ -	\$ 0.05
Federal Universal Service Charge, per line	\$ -	\$ 0.86
OPTION: Basic Inside Wiring Extension (not applicable for fiber)		
Note: If the school's router is not in the same room as the Telco Demarc (See document, "Customer Requirements - Demarc") then the school is responsible for extending the wiring for both the WAN circuit and the analog POTS line to the router location.		
The School system may use own contractor for wiring or request from BellSouth		
If BellSouth provides wiring, the school must provide adequate raceway or conduit from the demarc to the router location.		
Premises Visit, Minimum, Testing, Verifying and Re-use Non-recurring Charges		
(a) Premises visit (per visit)	\$ 42.00	\$ -
(b) Minimum charge for services rendered	\$ 84.00	\$ -
(c) Testing, verifying and re-use of an existing wire (per termination)	\$ 28.00	\$ -
Customary Wiring Extension (not applicable for fiber)		
Standard pricing includes up to 150 ft. of wire, labor, materials, and termination at both ends based on normal conditions. This includes the fishing of normal, unobstructed walls surfaced with drywall, wood paneling, or plywood.		
(a) Jack and faceplate - 4 pair (or less), non-plenum, per termination:	\$ 84.00	\$ -
(b) Jack and faceplate - 4 pair (or less), plenum - per termination:	\$ 116.00	\$ -
