Preface

Public Documents, the official bibliography of Louisiana public documents, is issued by the Recorder of Documents at the State Library of Louisiana, in accordance with R.S. 25:123. It lists publications provided to depositories and includes all publications known to the Recorder, even those available in limited quantity.

This issue of Public Documents lists publications received from state agencies and distributed to depositories between January and June 1997. Publications are arranged by agency. Every effort has been made to provide cross references within the text. Entries include Louisiana documents classification numbers and all available bibliographic information. This issue of Public Documents is also available on the State Library web page.

The publications in Public Documents, no. 95, are arranged alphabetically by government department and by office or division within departments. Most colleges and universities and boards, commissions and like entities do not fall under a department and are listed separately within the list. Directional assistance appears within the list whenever appropriate. Entries are numbered consecutively throughout the issue.

State publications are accessible for use by the public in the depositories established in accordance with R.S. 25:122(A). Complete depositories receive all documents available for distribution; the remainder of the depositories have a variety of publications dependent upon their selection lists. Depositories keep state publications for six years. Historical depositories keep publications permanently. Libraries that are not part of the depository program should request copies of publications directly from the issuing agencies. The Roster of Officials, issued by the Department of State, lists the names and addresses of most state agencies.

The cooperation of state agencies in reporting and providing their publications for distribution is appreciated. The participation of the depositories is also appreciated.

The statutes, rules and regulations creating and governing the Public Document Depository System appear in Louisiana Revised Statutes 25:121-124.1 and in Louisiana Administrative Code 25.VII.4101 and following. They can also be found on the State Library web page.

Index

The publications in Public Documents, no. 95, are arranged by alphabetically government department and by office or division within departments. Most colleges and universities and boards, commissions and like entities do not fall under a department and are listed separately within the list. Directional assistance appears within the list whenever appropriate. Entries are numbered consecutively throughout the issue. The index terms direct the user to an entry number, not to a page number in the text.

The index is divided into two parts: personal names and subject, keyword, and title. The items in each part of the index appear in alphabetical order, word by word. In the personal names section an attempt has been made to include the names of all individuals who are authors, editors or subjects of documents. In some cases, an individual who contributed to a part of a document, an article in a periodical, for instance, has been included in the index. Every effort has been made to provide access to the documents in this volume. Index entries include titles, key words from titles, state agency names and sections, and subjects.

Please direct all comments and suggestions to the Recorder of Documents.

A list of form divisions used in the Louisiana documents classification schedule follows.

Form divisions for Louisiana documents classification schedule.

.1 reports .8d dockets
