2006 Exclusions by Publication Type

Depository Library/Institution: _____

We try to distinguish between magazines/journals (e.g. WaterMarks, Grain Market Report, LSU Research) and newsletters (e.g. Agronomy and Environmental News, Oak Leaf LSUA campus newsletter, Links: TRSL's member bulletin). Journals, because they are considered "general" publications, do not have an exclusion choice. Newsletters have a target, narrower audience like employees or alumni. Both academic and agency newsletters have exclusion choices.
