

Un-bundled Option for Branches Information Sheet

BellSouth Provides:

- All circuits at branches and headquarters
- Multiple phone numbers to call for troubleshooting, depending on whether it is an Internet, equipment or circuit problem.

The Public Library Provides:

- Own firewall and filter at headquarters
- Own router, maintenance, troubleshooting, configuration, at each branch
- Own router, maintenance, troubleshooting, configuration at headquarters
- Second WAN access circuit to bring frame relay branch traffic into and through the headquarters firewall/filter.

The State Library pays for:

- One bundled Internet router, one circuit, and Internet access to each headquarters.

The Public Library pays for:

- Own branch and headquarters router(s), maintenance, etc.
- Second WAN access circuit (to be reimbursed by the State Library for FY05-06) at headquarters
- Its own firewall/filter solution

Un-bundled Pricing

NOTE: This pricing applies only to branches and headquarters in BellSouth territory. If any of your branches or headquarters are in an independent telco territory, or you are a hub/multilink library, you must get customized pricing from your BellSouth rep or Caroline LeBlanc.
