

Louisiana Public Document Depository Program  
**CORE COLLECTION TITLE LIST**  
 Revised February 2019

The Louisiana Administrative Code mandates that a core collection be identified by the Recorder of Documents with the aid of the Louisiana Public Document Depository Program Advisory Council. The core collection consists of the most essential and basic state documents necessary to support the information requirements of depository library patrons. All depository libraries in the Louisiana Public Document Depository Program are required to provide access to all core collection titles in all available formats. For titles available in digital format, this is accomplished by maintaining working links from the library's catalog to the most recent editions or issues. The Louisiana document number must be included in the bibliographic records.

Note: The depository program retention and weeding policies and procedures apply to core titles. These policies and procedures are found in the [Handbook for Depository Libraries](#) available from the Recorder of Documents web site.
