Procedure

1. View a selection of contemporary images of people, places, and events. You may wish to use the works of Louisiana photographers (for example, A. Hays Town and C.C. Lockwood). Ask students to explain the stories that are related by these images.
2. Explain that students will browse the LOUISiana Digital Library to discover how changes in photography (equipment, subjects, technology, etc) and the changing role of photographers shaped our perception of our world.
3. Divide the class into groups and distribute the Civil War Photographs for the Ages Note-taking Guide. (You may wish to narrow the scope by assigning each group one collection from the Digital Library or one photographer. You may also wish to expand the scope of this project by asking students to use the Internet to locate more information about specific types of photography and cameras used during the 19th century.)
4. Demonstrate the collection search and advanced search features of the LOUISiana Digital Library.
5. Demonstrate how to access individual collections of photographs from the LOUISiana Digital Library Collection home page. Use images in the [Charles L. Thompson Collection](#) to demonstrate how each collection is actually a visual essay about the photographer's contemporary world.

6. Explain the importance of image metadata in identifying photography equipment, photographers, and subject matter. Explain that Collection descriptions help students understand the subject matter and time/historical circumstances during which images were recorded.
7. Ask students to prepare a short multimedia presentation of their research. Explain that a multimedia presentation is a visual essay. Distribute copies of and discuss the Essay Rubric, Multimedia Presentation Rubric, and Multimedia Storyboard to demonstrate how presentation preparation and guidelines for each medium are similar.
8. Explain and/or demonstrate how students may copy images, save images, and/or use the My Favorites function of the LOUISiana Digital Library to prepare a PowerPoint slideshow. Please refer to the viewers and help and my favorites pages of the LOUISiana Digital Library for help and additional information
9. Provide access to computers and allow adequate time for research and collaboration.
10. Use the **Observation Form** to record anecdotal information about peer collaboration.
11. Student Presentations
12. **Debrief.** Use student presentations to discuss the role of photographers as visual historians. Ask students if they can identify examples from their research about bias in photographs or examples of photographs used to shape public perception.
13. **Culminate Visual Essay Commentary on Our Contemporary World.** Ask students to use modern photographic equipment including disposable cameras, digital cameras and recorders, and camera phones to capture images of their world. Students will use these images to create a visual essay (multimedia presentation, collage, poster, etc) about life in our contemporary society. Distribute appropriate rubrics to guide the assignment.
14. Create a classroom gallery display of student projects.
15. **Extension.** Ask students to use the Internet to locate more information about specific types of photography and cameras used during the 19th century.
