

Professional Opportunity

Research Impact Analyst, Tulane University

Rudolph Matas Library of the Health Sciences

Tulane University seeks skilled, creative applicants for the position of Research Impact Analyst. This newly-created position, based in the Matas Health Sciences Library, will help measure the impact of faculty published research and will assist in raising the profile of Tulane's researchers in the STEM disciplines. The Research Impact Analyst will provide analyses of bibliometric data; offer specialized support for existing and emerging applications of impact data; and assist administrators, researchers, faculty, and graduate students with grant reporting requirements, publishing services, bibliometrics for research studies, and assistance with clinical trials investigations. This position will also serve as a scholarly engagement librarian supporting the School of Medicine, the School of Public Health and Tropical Medicine, the Tulane National Primate Research Center, and other areas related to STEM research across the University, in collaboration with colleagues at the Howard-Tilton Memorial Library, Tulane's central library.

The most attractive candidate for this role will have a master's degree in science (health sciences preferred) with demonstrated experience in research analysis. MLS/MLIS degree from an ALA-accredited graduate program or its equivalent with a strong science and informatics background is equally acceptable. Other requirements include:

- Experience with research impact metrics, bibliometrics and relevant related resources (e.g. ORCID, VIVO-based profiles, NCBI My Bibliography);
- Demonstrated experience providing services related to research impact, altmetrics, and bibliometrics via training, instruction, or consultation;
- Experience providing research assistance, conducting online searches across multiple resources/platforms using advanced searching techniques;
- Strong interpersonal skills in relationship building, communication, outreach, cooperation building, and collaboration across diverse populations and groups.

Salary and benefits are competitive and commensurate with experience and include health insurance, paid leave, professional development support, retirement options, and relocation assistance.

Tulane University is an AAU/Carnegie 1/ARL Research Institution and is ranked by U.S. News and World Report among the top national universities in the United States. The Rudolph Matas Library is located downtown New Orleans at the Tulane University Health Sciences Campus near the Historic French Quarter. The library underwent significant renovations in 2008 and continues to add new databases and e-resources for faculty, researchers and students.

To apply, please go to this LINK at <http://apply.interfolio.com/50629> and enter for more information about the job, and to submit requisite documentation. To ensure full consideration applicants must submit a letter of application, current resume/CV and names with contact information of at least 3 professional references. Review of application will begin immediately and continue until the positions is filled.

Tulane University is an ADA/AA/EO employer. Women, minorities, and veterans are encouraged to apply.
